Profile

A highly motivated and results-driven 6th-semester Informatics student at Dinamika Bangsa University with an outstanding GPA of 3.99. Experienced in building responsive and scalable web applications using React.js, Node.js, and modern development tools. Passionate about creating innovative, user-centric solutions and eager to contribute to advancements in web development and the digital technology industry.

Activities and Experiences

Juny 2025 - Present

Academy Code Reviewer - Dicoding Indonesia

Remote

- Conducted consistent code reviews to ensure the quality of students' submitted projects.
- Delivered constructive feedback to strengthen students' coding practices.
- Collaborated with the team to improve review workflows and educational outcomes.

October 2024 - Juny 2025

Discussion Squad - Dicoding Indonesia

Remote

- Recognized as "Elite of the Month" for outstanding contributions in assisting students and resolving forum discussions effectively.
- Facilitated inclusive discussions to promote critical thinking and innovative solutions.
- Provided guidance and answers to enhance students' understanding.
- Analyzed feedback to refine teaching strategies and learning approaches.

September 2024 -Juny 2025

React Developer - IDCamp

Indosat Ooredoo Hutchison Digital Camp And Dicoding

Remote

- Developed dynamic, component-based user interfaces with React fundamentals such as hooks, props, and state management using Redux for scalable architecture.
- Utilized Tailwind CSS and Styled Components for flexible styling, and wrote clean, modular JavaScript (ES6+) for maintainable codebases.
- Integrated APIs using async/await and Axios, implemented automated testing with Jest, and optimized performance with CI/CD pipelines and GitHub Actions.

September 2023 -September 2024

Front-End Web Developer - IDCamp Indosat Ooredoo Hutchison Digital Camp And Dicoding

Remote

• Created websites using HTML, CSS, and JavaScript to deliver engaging user experiences.

- Utilized SASS/SCSS and Bootstrap for structured and responsive designs.
- Integrated APIs using Fetch and third-party libraries such as Axios.
- Built Progressive Web Apps (PWAs) with a focus on performance and accessibility.
- Implemented CI/CD with GitHub Actions and Netlify for continuous development and deployment.

September 2023 -Present

Jambi, Indonesia

CoreTeam - Kunitas Programming Unama

- Developed interactive web applications with intuitive user interface designs using modern frameworks.
- Enhanced team morale through positive reinforcement and team-building activities.
- Ensured accessibility across all devices through responsive design.

Education

September 2022 -Present

Dinamika Bangsa University

Computer Science - Informatics Engineering

Jambi, Indonesia

6th semester college students

GPA: 3.99

Related Coursework

- Basic Programming
- Algorithms and Data Structures I and II
- OOP (Object Oriented Programming)
- · Database I and II
- Computer Networking
- Mobile Programming (Flutter)
- Web Programming I and II
- Machine Learning I

Technical Expertise

- Web Development: HTML, CSS, JavaScript, TypeScript, React.js, Next.js
- **Frameworks and Libraries:** Tailwind CSS, Bootstrap, Node.js, Express.js, Redux, Context API, React Query, Styled Components, Hapi.js
- Database Management: MongoDB, PostgreSQL, MySQL, Firebase
- Testing & Optimization: Jest, Vitest, Web Performance Metrics (FCP, LCP, CLS)
- Tools and Platforms: Git, GitHub, Netlify, Vercel, CI/CD, Expo, Visual Studio Code, Postman, Microsoft Azure, Notion
- API Integration: Fetch, Axios, RESTful APIs
- Build Tools: Webpack, Vite

Additional Skills

- Mobile-First Development and Progressive Web Apps (PWAs)
- State Management: Redux, Context API, React Query

Languages

• English: Intermediate
